# **eBook Instant Access - for Starting Out With Visual Basic, International Edition**

## **Table of Contents**

Cover

Contents

Preface

### **Chapter 1 Introduction to Programming and Visual Basic**

#### **1.1 Computer Systems: Hardware and Software**

#### **1.2 Programs and Programming Languages**

TUTORIAL 1-1: Running the Wage Calculator application

TUTORIAL 1-2: Running an application that demonstrates event handlers

#### **1.3 More about Controls and Programming**

TUTORIAL 1-3: Running an application that demonstrates various controls

#### **1.4 The Programming Process**

#### **1.5 Visual Studio and Visual Studio Express (the Visual Basic Environment)**

TUTORIAL 1-4: Starting Visual Studio and setting up the environment

TUTORIAL 1-5: Starting a new Visual Basic project

TUTORIAL 1-6: Becoming familiar with the Visual Studio environment

Summary

Review Questions and Exercises

Programming Challenges

### **Chapter 2 Creating Applications with Visual Basic**

#### **2.1 Focus on Problem Solving: Building the Directions Application**

TUTORIAL 2-1: Beginning the Directions application

TUTORIAL 2-2: Adding a Label control to the Directions application

TUTORIAL 2-3: Changing the Labels font size and style

TUTORIAL 2-4: Deleting a control

TUTORIAL 2-5: Inserting a PictureBox control

TUTORIAL 2-6: Running the application

TUTORIAL 2-7: Opening an existing project and becoming familiar with the Properties window

#### **2.2 Focus on Problem Solving: Responding to Events**

TUTORIAL 2-8: Adding a Label control for the written directions

TUTORIAL 2-9: Adding the Display Directions button and its Click event handler

TUTORIAL 2-10: Adding the Exit button and its Click event handler

TUTORIAL 2-11: Adding comments to the Directions project code

TUTORIAL 2-12: Changing the text colors

TUTORIAL 2-13: Setting the FormBorderStyle property and locking the controls in

# **Table of Contents**

## **the Directions application**

### **2.3 Modifying a Controls Text Property with Code**

TUTORIAL 2-14: Examining an application that displays messages in a Label control

### **2.4 The AutoSize, BorderStyle, and TextAlign Properties**

### **2.5 Displaying User Messages**

TUTORIAL 2-15: Displaying message boxes

### **2.6 Clickable Images**

TUTORIAL 2-16: Writing Click event handlers for PictureBox controls

### **2.7 Using Visual Studio Help**

### **2.8 Debugging Your Application**

TUTORIAL 2-17: Locating a compile error in design mode

### **Summary**

### **Key Terms**

### **Review Questions and Exercises**

### **Programming Challenges**

## **Chapter 3 Variables and Calculations**

### **3.1 Gathering Text Input**

TUTORIAL 3-1: Using a TextBox control

TUTORIAL 3-2: Building the Date String application

TUTORIAL 3-3: Using the Focus method

TUTORIAL 3-4: Changing the tab order

TUTORIAL 3-5: Setting access keys, accept, and cancel buttons

### **3.2 Variables and Data Types**

TUTORIAL 3-6: Assigning text to a variable

### **3.3 Performing Calculations**

### **3.4 Mixing Different Data Types**

TUTORIAL 3-7: Examining a Simple Calculator application

### **3.5 Formatting Numbers and Dates**

TUTORIAL 3-8: Examining the Format Demo application

### **3.6 Class-Level Variables**

### **3.7 Exception Handling**

TUTORIAL 3-9: Exception Demonstration

TUTORIAL 3-10: Salary Calculator project with exception handling

### **3.8 Group Boxes**

### **3.9 The Load Event**

### **3.10 Focus on Program Design and Problem Solving: Building the Room Charge Calculator Application**

TUTORIAL 3-11: Beginning the Room Charge Calculator application

# Table of Contents

TUTORIAL 3-12: Changing a labels colors

## 3.11 More about Debugging: Locating Logic Errors

TUTORIAL 3-13: Single-stepping through an applications code at runtime

Summary

Key Terms

Review Questions and Exercises

Programming Challenges

## Chapter 4 Making Decisions

### 4.1 The Decision Structure

### 4.2 The If...Then Statement

TUTORIAL 4-1: Examining an application that uses the If...Then statement

### 4.3 The If...Then...Else Statement

TUTORIAL 4-2: Completing an application that uses the If...Then...Else statement

### 4.4 The If...Then...Elseif Statement

TUTORIAL 4-3: Completing an application that uses the If...Then...Elseif statement

### 4.5 Nested If Statements

TUTORIAL 4-4: Completing an application with a nested If statement

### 4.6 Logical Operators

### 4.7 Comparing, Testing, and Working with Strings

TUTORIAL 4-5: Examining an application that performs string comparisons

TUTORIAL 4-6: Completing a string searching application

### 4.8 The Select Case Statement

TUTORIAL 4-7: Examining Crazy Als Sales Commission Calculator application

### 4.9 Introduction to Input Validation

TUTORIAL 4-8: Examining an application that uses TryParse for input validation

### 4.10 Focus on GUI Design: Radio Buttons and Check Boxes

TUTORIAL 4-9: Completing an application with radio buttons and check boxes

### 4.11 Focus on Program Design and Problem Solving: Building the Health Club Membership Fee Calculator Application

TUTORIAL 4-10: Building the Health Club Membership Fee Calculator application

Summary

Review Questions and Exercises

Programming Challenges

## Chapter 5 Lists and Loops

### 5.1 Input Boxes

### 5.2 List Boxes

TUTORIAL 5-1: Creating list boxes

# **Table of Contents**

## **5.3 Introduction to Loops: The Do While Loop**

TUTORIAL 5-2: Completing an application that uses the Do While loop

TUTORIAL 5-3: Modifying the Do While Demo application to use a posttest loop

TUTORIAL 5-4: Using a loop to keep a running total

TUTORIAL 5-5: Examining an application that uses a user-controlled loop

## **5.4 The Do Until and For...Next Loops**

TUTORIAL 5-6: Examining an application that uses the Do Until loop

TUTORIAL 5-7: Examining an application that uses the For...Next loop

TUTORIAL 5-8: Completing an application that uses the For...Next loop

## **5.5 Nested Loops**

## **5.6 Multicolumn List Boxes, Checked List Boxes, and Combo Boxes**

TUTORIAL 5-9: Creating combo boxes

## **5.7 Random Numbers**

TUTORIAL 5-10: Creating the Coin Toss application

## **5.8 Simplifying Code with the With...End With Statement**

## **5.9 ToolTips**

TUTORIAL 5-11: Adding ToolTips to an application

## **5.10 Focus on Program Design and Problem Solving: Building the Vehicle Loan Calculator Application**

TUTORIAL 5-12: Building the Vehicle Loan Calculator application

Summary

Key Terms

Review Questions and Exercises

Programming Challenges

# **Chapter 6 Procedures and Functions**

## **6.1 Procedures**

TUTORIAL 6-1: Examining an application with a procedure

TUTORIAL 6-2: Creating and calling procedures

## **6.2 Passing Arguments to Procedures**

TUTORIAL 6-3: Examining an application that demonstrates passing an argument to a procedure

TUTORIAL 6-4: Working with ByVal and ByRef

## **6.3 Functions**

TUTORIAL 6-5: Sale Price Calculator application

## **6.4 More about Debugging: Stepping Into, Over, and Out of Procedures and Functions**

TUTORIAL 6-6: Practicing the Step Into command

TUTORIAL 6-7: Practicing the Step Over command

TUTORIAL 6-8: Practicing the Step Out command

## **6.5 Focus on Program Design and Problem Solving: Building the Bagel and Coffee**

# **Table of Contents**

## **Price Calculator Application**

TUTORIAL 6-9: Building the Bagel House application

Summary

Key Terms

Review Questions and Exercises

Programming Challenges

## **Chapter 7 Multiple Forms, Modules, and Menus**

### **7.1 Multiple Forms**

TUTORIAL 7-1: Creating an application with two forms

TUTORIAL 7-2: Completing an application that displays modal and modeless forms

TUTORIAL 7-3: Accessing a control on a different form

### **7.2 Modules**

TUTORIAL 7-4: Examining an application that uses a module

### **7.3 Menus**

TUTORIAL 7-5: Building a menu

### **7.4 Focus on Problem Solving: Building the High Adventure Travel Agency Price Quote Application**

TUTORIAL 7-6: Building the High Adventure Travel Agency Price Quote application

Summary

Key Terms

Review Questions and Exercises

Programming Challenges

## **Chapter 8 Arrays and More**

### **8.1 Arrays**

TUTORIAL 8-1: Using an array to hold a list of random lottery numbers

TUTORIAL 8-2: Using an array to hold a list of names entered by the user

TUTORIAL 8-3: Completing an application that uses array elements in a calculation

### **8.2 Array Processing Techniques**

TUTORIAL 8-4: Using parallel arrays

### **8.3 Procedures and Functions That Work with Arrays**

TUTORIAL 8-5: Examining an application that passes an array to procedures and functions

### **8.4 Multidimensional Arrays**

TUTORIAL 8-6: Completing the Seating Chart application

### **8.5 Focus on GUI Design: The Enabled Property and the Timer Control**

TUTORIAL 8-7: The Timer Demo

TUTORIAL 8-8: Creating the Catch Me game

### **8.6 Focus on GUI Design: Anchoring and Docking Controls**

# **Table of Contents**

## **8.7 Focus on Problem Solving: Building the Demetris Leadership Center Application**

TUTORIAL 8-9: Building the Demetris Leadership Center Sales Reporting application

## **8.8 Using Lists to Hold Information (Optional Topic)**

TUTORIAL 8-10: Building a List from User Input

Summary

Key Terms

Review Questions and Exercises

Programming Challenges

## **Chapter 9 Files, Printing, and Structures**

### **9.1 Using Files**

TUTORIAL 9-1: Completing an application that writes data to a file

TUTORIAL 9-2: Completing an application that reads a file

TUTORIAL 9-3: Examining an application that detects the end of a file

### **9.2 The OpenFileDialog, SaveFileDialog, FontDialog, and ColorDialog Controls**

TUTORIAL 9-4: Creating a Simple Text Editor application

### **9.3 The PrintDocument Control**

TUTORIAL 9-5: Adding printing capabilities to the Simple Text Editor application

### **9.4 Structures**

TUTORIAL 9-6: Examining an application with a structure

Summary

Key Terms

Review Questions and Exercises

Programming Challenges

## **Chapter 10 Working with Databases**

### **10.1 Database Management Systems**

### **10.2 Database Concepts**

### **10.3 DataGridView Control**

TUTORIAL 10-1: Showing a database table in a DataGridView control

TUTORIAL 10-2: Sorting and updating the SalesStaff table

### **10.4 Data-Bound Controls**

TUTORIAL 10-3: Binding a DataGridView to the SalesStaff table

TUTORIAL 10-4: Binding individual controls to the SalesStaff table

TUTORIAL 10-5: Displaying the Karate Members table in a ListBox Control

TUTORIAL 10-6: Inserting Karate member payments

TUTORIAL 10-7: Adding a total to the Insert Karate Payments application

### **10.5 Structured Query Language (SQL)**

TUTORIAL 10-8: Filtering rows in the SalesStaff table

# **Table of Contents**

## **10.6 Focus on Problem Solving: Karate School Management Application**

TUTORIAL 10-9: Creating the Karate School Manager startup form

TUTORIAL 10-10: Adding the Membership / List All function to the Karate School Manager

TUTORIAL 10-11: Adding the Membership / Add New Member function to the Karate School Manager

TUTORIAL 10-12: Adding the Membership / Find Member function to the Karate School Manager

TUTORIAL 10-13: Adding the Payments / All Members function to the Karate School Manager

## **10.7 Introduction to LINQ**

## **10.8 Creating Your Own Database**

TUTORIAL 10-14: Creating the Movie database and the Films table

Summary

Key Terms

Review Questions and Exercises

Programming Challenges

## **Chapter 11 Developing Web Applications**

### **11.1 Programming for the Web**

### **11.2 Creating ASP.NET Applications**

TUTORIAL 11-1: Creating the Click application

### **11.3 Web Server Controls**

TUTORIAL 11-2: Student Picnic application

### **11.4 Designing Web Forms**

TUTORIAL 11-3: Signing up for a Kayak Tour

### **11.5 Applications with Multiple Web Pages**

TUTORIAL 11-4: Adding a description form to the Kayak Tour application

### **11.6 Using Databases**

TUTORIAL 11-5: Displaying the Karate Members table in a GridView

TUTORIAL 11-6: Updating the Karate Members table

Summary

Key Terms

Review Questions and Exercises

Programming Challenges

## **Chapter 12 Classes, Collections, and Inheritance**

### **12.1 Classes and Objects**

### **12.2 Creating a Class**

TUTORIAL 12-1: Creating the Student Data application

### **12.3 Collections**

# **Table of Contents**

## 12.4 Focus on Problem Solving: Creating the Student Collection Application

TUTORIAL 12-2: Completing the Student Collection application

## 12.5 The Object Browser

TUTORIAL 12-3: Using the Object Browser

## 12.6 Introduction to Inheritance

TUTORIAL 12-4: Completing an application that uses inheritance
