#### Criteria of a Profession

Specialized Education

Body of Knowledge

Service Orientation

Ongoing Research

Code of Ethics

Autonomy

Professional Organization

#### Socialization to Nursing

Critical Values of Nursing

#### Factors Influencing Contemporary Nursing Practice

Health Care Reform

Quality and Safety in Health Care

Consumer Demands

Family Structure

Science and Technology

Information, Telehealth, and Telenursing

Legislation

Demography

The Current Nursing Shortage

Collective Bargaining

Nursing Associations

#### Nursing Organizations

American Nurses Association National League for Nursing International Council of Nurses National Student Nurses Association International Honor Society: Sigma Theta Tau

### Chapter 2: Evidence-Based Practice and Research in Nursing

#### Introduction

### **Evidence-Based Practice**

#### Nursing Research

Approaches to Nursing Research

Overview of the Research Process

Research-Related Roles and Responsibilities for Nurses

### Chapter 3: Nursing Theories and Conceptual Frameworks

#### Introduction

#### Introduction to Theories

Context for Theory Development in American Universities

**Defining Terms** 

### The Metaparadigm for Nursing

Role of Nursing Theory

In Education

In Research

In Clinical Practice

#### **Overview of Selected Nursing Theories**

Nightingales Environmental Theory

Peplaus Interpersonal Relations Model

Hendersons Definition of Nursing

Rogers Science of Unitary Human Beings

Orems General Theory of Nursing

Kings Goal Attainment Theory

Neumans Systems Model

Roys Adaptation Model

Leiningers Cultural Care Diversity and Universality Theory

Watsons Human Caring Theory

Parses Humanbecoming Theory

Critique of Nursing Theory

### Chapter 4: Legal Aspects of Nursing

#### Introduction

General Legal Concepts

Functions of the Law in Nursing

Sources of Law

Types of Laws

Kinds of Legal Actions

The Civil Judicial Process

Nurses as Witnesses

#### **Regulation of Nursing Practice**

Nurse Practice Acts

Credentialing

Standards of Care

#### Contractual Arrangements in Nursing

Legal Roles of Nurses

Collective Bargaining

### Selected Legal Aspects of Nursing Practice

Informed Consent

Delegation

Violence, Abuse, and Neglect

The Americans with Disabilities Act

**Controlled Substances** 

The Impaired Nurse

Sexual Harassment

Abortions

Death and Related Issues

#### Areas of Potential Liability in Nursing

Crimes and Torts

Privacy of Clients Health Information

Social Media

Loss of Client Property

Unprofessional Conduct

Legal Protections in Nursing Practice

Good Samaritan Acts Professional Liability Insurance Carrying Out a Physicians Orders Providing Competent Nursing Care Documentation The Incident Report Reporting Crimes, Torts, and Unsafe Practices Legal Responsibilities of Students Chapter 5: Values, Ethics, and Advocacy Introduction Values Values Transmission Values Clarification Ethics and Morality Moral Development Moral Frameworks Moral Principles Nursing Ethics Nursing Codes of Ethics Origins of Ethical Problems in Nursing Making Ethical Decisions Strategies to Enhance Ethical Decisions and Practice **Specific Ethical Issues** Acquired Immunodeficiency Syndrome (AIDS) Abortion Organ and Tissue Transplantation End-of-Life Issues Allocation of Scarce Health Resources Management of Personal Health Information Advocacy The Advocates Role Unit 2: Contemporary Health Care Chapter 6: Health Care Delivery Systems Introduction Types of Health Care Agencies and Services Primary Prevention: Health Promotion and Illness Prevention Secondary Prevention: Diagnosis and Treatment

Tertiary Prevention: Rehabilitation, Health Restoration, and Palliative Care

#### Types of Health Care Services

Public Health

Physicians Offices

Ambulatory Care Centers

Occupational Health Clinics

Hospitals

Subacute Care Facilities

Extended (Long-Term) Care Facilities

Retirement and Assisted Living Centers

**Rehabilitation Centers** 

Home Health Care Agencies

Day Care Centers

Rural Care

Hospice Services

Crisis Centers

Mutual Support and Self-Help Groups

### Providers of Health Care

Nurse

Alternative (Complementary) Care Provider

Case Manager

Dentist

Dietitian or Nutritionist

**Emergency Medical Personnel** 

Occupational Therapist

Paramedical Technologist

Pharmacist

Physical Therapist

Physician

Physician Assistant

Podiatrist

**Respiratory Therapist** 

Social Worker

Spiritual Support Personnel

Unlicensed Assistive Personnel

### Factors Affecting Health Care Delivery

Increasing Number of Older Adults

Advances in Technology

Economics

Womens Health

Uneven Distribution of Services

Access to Health Insurance

The Homeless and the Poor

Health Insurance Portability and Accountability Act

#### Demographic Changes

Frameworks for Care

Managed Care

Case Management

**Differentiated Practice** 

Case Method

Functional Method

Team Nursing

Primary Nursing

Financing Health Care

Payment Sources in the United States

Insurance Plans

### Chapter 7: Community Nursing and Care Continuity

### Introduction

#### The Movement of Health Care to the Community

Primary Health Care and Primary Care

#### Community-Based Health Care

#### **Community Health**

Community-Based Frameworks

Community-Based Settings

#### **Community-Based Nursing**

Competencies Required for Community-Based Care

Collaborative Health Care

### Continuity of Care

Care Across the Life Span

Discharge Planning

Preparing Clients to Go Home

Medication Reconciliation

Home Health Care Teaching

Referrals

### Chapter 8: Home Care

#### Introduction

#### Home Health Nursing

Unique Aspects of Home Health Nursing

#### The Home Health Care System

Referral Process

Home Health Agencies

Private Duty Agencies

**Durable Medical Equipment Companies** 

Reimbursement

#### Roles of the Home Health Nurse

Advocate

Caregiver

Educator

#### Case Manager or Coordinator

#### Perspectives of Home Care Clients

#### Selected Dimensions of Home Health Nursing

Client Safety

Nurse Safety

Infection Prevention

Caregiver Support

#### The Practice of Nursing in the Home

Establishing Health Issues

Planning and Delivering Care

Resources for Home Health Nursing

The Future of Home Health Care

### Chapter 9: Electronic Health Records and Information Technology

### Introduction

#### **General Concepts**

#### **Computer Systems**

Management Information Systems

Hospital Information Systems

### Technology in Nursing Education

Teaching and Learning

Testing

Student and Course Record Management

#### **Technology in Nursing Practice**

Documentation of Client Status and Medical Record Keeping

Electronic Access to Client Data

Practice Management

Specific Applications of Computers in Nursing Practice

#### Technology in Nursing Administration

- Human Resources
- Medical Records Management
- Facilities Management
- Budget and Finance
- Quality Assurance and Utilization Review

Accreditation

#### Technology in Nursing Research

- **Problem Identification**
- Literature Review
- Research Design
- Data Collection and Analysis
- Research Dissemination
- **Research Grants**

### Unit 3: The Nursing Process

### Chapter 10: Critical Thinking and Clinical Reasoning

#### Introduction

Purpose of Critical Thinking

Techniques in Critical Thinking

#### Applying Critical Thinking to Nursing Practice

Problem Solving

Attitudes That Foster Critical Thinking

- Independence
- Fair-Mindedness
- Insight into Egocentricity
- Intellectual Humility
- Intellectual Courage to Challenge the Status Quo and Rituals
- Integrity
- Perseverance
- Confidence

#### Curiosity

#### Components of Clinical Reasoning

Setting Priorities

**Developing Rationales** 

Learning How to Act

Clinical Reasoning-in-Transition

Responding to Changes in the Clients Condition

Reflection

#### Integration of Critical Thinking and Clinical Reasoning

#### **Concept Mapping**

Concept Mapping and Enhancing Critical Thinking and Clinical Reasoning

#### Chapter 11: Assessing

### Introduction

**Overview of the Nursing Process** 

Phases of the Nursing Process

Characteristics of the Nursing Process

### Assessing

**Collecting Data** 

Types of Data

Sources of Data

Data Collection Methods

#### **Organizing Data**

Conceptual Models/Frameworks

Wellness Models

Nonnursing Models

#### Validating Data

**Documenting Data** 

### Chapter 12: Diagnosing

Introduction

#### Nanda Nursing Diagnoses

Definitions

Status of the Nursing Diagnoses

Components of a NANDA Nursing Diagnosis

Differentiating Nursing Diagnoses from Medical Diagnoses

Differentiating Nursing Diagnoses from Collaborative Problems

#### The Diagnostic Process

Analyzing Data

Identifying Health Problems, Risks, and Strengths

Formulating Diagnostic Statements

Avoiding Errors in Diagnostic Reasoning

#### Ongoing Development of Nursing Diagnoses

Chapter 13: Planning

Introduction

Types of Planning

	Initial Planning
	Ongoing Planning
	Discharge Planning
Dev	eloping Nursing Care Plans
	Standardized Approaches to Care Planning
	Formats for Nursing Care Plans
	Multidisciplinary (Collaborative) Care Plans
	Guidelines for Writing Nursing Care Plans
The	Planning Process
	Setting Priorities
	Establishing Client Goals/Desired Outcomes
	Selecting Nursing Interventions and Activities
	Writing Individualized Nursing Interventions
	Delegating Implementation
The	Nursing Interventions Classification
Chapte	er 14: Implementing and Evaluating
•	oduction
	lementing
mp	Relationship of Implementing to Other Nursing Process Phases
	Implementing Skills
	Process of Implementing
Eva	luating
Lva	Relationship of Evaluating to Other Nursing Process Phases
	Process of Evaluating Client Responses
	Evaluating the Quality of Nursing Care
Chapte	
•	er 15: Documenting and Reporting
	oduction
Ethi	cal and Legal Considerations
	Ensuring Confidentiality of Computer Records
Pur	poses of Client Records
	Communication
	Planning Client Care
	Auditing Health Agencies
	Research
	Education
	Reimbursement
	Legal Documentation
_	Health Care Analysis
Doc	cumentation Systems
	Source-Oriented Record
	Problem-Oriented Medical Record
	PIE Example Charting
	Focus Charting
	Charting by Exception
	Computerized Documentation

Case Management

#### **Documenting Nursing Activities**

Admission Nursing Assessment

Nursing Care Plans

Kardexes

Flow Sheets

Progress Notes

Nursing Discharge/Referral Summaries

#### Long-Term Care Documentation

### Unit 4: Health Beliefs and Practices

### Chapter 16: Health Promotion

#### Introduction

Individual Health

Concept of Individuality

Concept of Holism

Concept of Homeostasis

Assessing the Health of Individuals

#### Applying Theoretical Frameworks

Needs Theories

**Developmental Stage Theories** 

Healthy People 20420

**Defining Health Promotion** 

Sites for Health Promotion Activities

#### Health Promotion Model

Individual Characteristics and Experiences

Behavior-Specific Cognitions and Affect Commitment to a Plan of Action Immediate Competing Demands and Preferences **Behavioral Outcome** Stages of Health Behavior Change Precontemplation Stage **Contemplation Stage** Preparation Stage Action Stage Maintenance Stage **Termination Stage** The Nurses Role in Health Promotion The Nursing Process and Health Promotion Nursing Management Chapter 17: Health, Wellness, and Illness Introduction Concepts of Health, Wellness, and Well-Being Health Wellness and Well-Being Models of Health and Wellness Clinical Model Role Performance Model Adaptive Model **Eudaimonistic Model** AgentHostEnvironment Model HealthIllness Continua Variables Influencing Health Status, Beliefs, and Practices Internal Variables **External Variables** Health Belief Models Health Locus of Control Model Rosenstock and Beckers Health Belief Models Health Care Adherence Illness and Disease **Illness Behaviors** Effects of Illness Chapter 18: Culturally Responsive Nursing Care Introduction **Cultural Concepts Health Disparities** Demographics Immigration Cultural Models of Nursing Care American Association of Colleges of Nursing Competencies **Cultural Competence** 

#### **HEALTH Traditions Model**

#### Providing Culturally Responsive Care

Health Beliefs and Practices

Family Patterns

Communication Style

Space Orientation

Time Orientation

Nutritional Patterns

**Nursing Management** 

### Chapter 19: Complementary and AlternativeHealing Modalities

#### Introduction

#### **Basic Concepts**

Holism

Humanism

Balance

Spirituality

Energy

Healing Environments

#### Healing Environments

Systematized Health Care Practices

**Botanical Healing** 

Nutritional Therapy

Manual Healing Methods

MindBody Therapies

Spiritual Therapy

**Miscellaneous Therapies** 

### Unit 5: Life Span Development

### Chapter 20: Concepts of Growth and Development

#### Introduction

#### Factors Influencing Growth and Development

Genetics

Temperament

Family

Nutrition

Environment

Health

Culture

#### Stages of Growth and Development

#### Growth and Development Theories

**Biophysical Theory** 

**Psychosocial Theories** 

**Temperament Theories** 

Attachment Theory

Cognitive Theory

Behaviorist Theory

Social Learning Theories Ecologic Systems Theory Theories of Moral Development Theories of Spiritual Development Applying Growth and Development Concepts to Nursing Practice Chapter 21: Promoting Health from Conception Through Adolescence Introduction **Conception and Prenatal Development** Health Promotion Neonates and Infants (Birth to 27 Year) Physical Development **Psychosocial Development** Cognitive Development Moral Development Health Risks Health Assessment and Promotion Toddlers (27 to 29 Years) Physical Development **Psychosocial Development Cognitive Development** Moral Development Spiritual Development Health Risks Health Assessment and Promotion Preschoolers (30 and 31 Years) Physical Development Psychosocial Development **Cognitive Development** Moral Development Spiritual Development Health Risks Health Assessment and Promotion School-Age Children (32 to 38 Years) **Physical Development** Psychosocial Development **Cognitive Development** Moral Development Spiritual Development Health Risks Health Assessment and Promotion Adolescents (38 to 44 Years) Physical Development Psychosocial Development **Cognitive Development** Moral Development Spiritual Development

Health Risks Health Assessment and Promotion Chapter 22: Promoting Health in Young and Middle-Aged Adults Introduction Young Adults (46 to 66 Years) Physical Development **Psychosocial Development** Cognitive Development Moral Development Spiritual Development Health Risks Health Assessment and Promotion Middle-Aged Adults (66 to 91 Years) Physical Development **Psychosocial Development Cognitive Development** Moral Development Spiritual Development Health Risks Health Assessment and Promotion Chapter 23: Promoting Health in Older Adults Introduction Characteristics of Older Adults in the United States Demographics Socioeconomic Ethnicity Health Attitudes Toward Aging Ageism Myths and Stereotypes Gerontological Nursing Development Roles Care Settings for Older Adults Acute Care Facilities Long-Term Care Facilities Hospice Rehabilitation Community **Physiological Aging** Integument Neuromuscular Sensory-Perceptual Pulmonary Cardiovascular

Spirituality and Aging

**Health Problems** 

Injuries

Chronic Disabling Illness

Drug Abuse and Misuse

Alcoholism

Dementia

Mistreatment of Older Adults

Health Assessment and Promotion

### Chapter 24: Promoting Family Health

#### Introduction

Family Health

Functions of the Family

Types of Families in Todays Society

### Applying Theoretical Frameworks to Families

Structural Functional Theory

Systems Theory

Nursing Management

### Unit 6: Integral Aspects of Nursing

### Chapter 25: Caring

Introduction

Professionalization of Caring

Caring as Helping the Other Grow

### Nursing Theories on Caring

Culture Care Diversity and Universality (Leininger)

Theory of Bureaucratic Caring (Ray)

Caring, the Human Mode of Being (Roach)

Nursing as Caring (Boykin and Schoenhofer)

Theory of Human Care (Watson)

Theory of Caring (Swanson)

#### Types of Knowledge in Nursing

Empirical Knowing: The Science of Nursing

Personal Knowing: The Therapeutic Use of Self

Ethical Knowing: The Moral Component

Aesthetic Knowing: The Art of Nursing

Developing Ways of Knowing

#### **Caring Encounters**

Knowing the Client

Nursing Presence

Empowering the Client

Compassion

Competence

#### Maintaining Caring Practice

Caring for Self

**Reflection on Practice** 

### Chapter 26: Communicating

### Introduction

#### Communicating

The Communication Process

Modes of Communication

Factors Influencing the Communication Process

Therapeutic Communication

Barriers to Communication

#### The Helping Relationship

Phases of the Helping Relationship Developing Helping Relationships

#### **Group Communication**

Group Dynamics

Types of Health Care Groups

#### Communication and the Nursing Process

#### Nursing Management

#### **Communication Among Health Professionals**

Disruptive Behaviors Responding to Disruptive Behaviors

Nurse and Physician Communication

### Chapter 27: Teaching

Introduction

#### Teaching

Teaching Clients and Their Families

Teaching in the Community

Teaching Health Personnel

Learning

Learning Domains

Learning Theories

Factors Affecting Learning

The Internet and Health Information

Online Health Information

Older Adults and Use of the Internet

Implications

Nurse as Educator

**Nursing Management** 

### Chapter 28: Leading, Managing, and Delegating

#### Introduction

The Nurse as Leader and Manager

Leadership

Leadership Theory

Effective Leadership

#### Management

Levels of Management

Management Functions

Principles of Management

Skills and Competencies of Nurse Managers

#### The Nurse as Delegator

#### Change

Types of Change

The Nurses Role in Change

### Unit 7: Assessing Health

### Chapter 29: Vital Signs

#### Introduction

#### **Body Temperature**

Regulation of Body Temperature

Factors Affecting Body Temperature

Alterations in Body Temperature

Assessing Body Temperature

#### SKILL 29-1: Assessing Body Temperature

#### Pulse

Factors Affecting the Pulse

Pulse Sites

Assessing the Pulse

### SKILL 29-2: Assessing a Peripheral Pulse Apical Pulse Assessment

SKILL 29-3: Assessing an Apical Pulse

SKILL 29-4: Assessing an Apical-Radial Pulse

#### Respirations

Mechanics and Regulation of Breathing

Assessing Respirations

Factors Affecting Respirations

SKILL 29-5: Assessing Respirations

**Blood Pressure** 

Determinants of Blood Pressure Factors Affecting Blood Pressure Hypertension Hypotension Assessing Blood Pressure Common Errors in Assessing Blood Pressure SKILL 29-6: Assessing Blood Pressure **Oxygen Saturation** Factors Affecting Oxygen Saturation Readings SKILL 29-7: Measuring Oxygen Saturation Chapter 30: Health Assessment Introduction Physical Health Assessment Preparing the Client Preparing the Environment Positioning Draping Instrumentation Methods of Examining **General Survey** Appearance and Mental Status SKILL 30-1: Assessing Appearance and Mental Status Vital Signs Height and Weight Integument Skin SKILL 30-2: Assessing the Skin Hair Nails SKILL 30-3: Assessing the Hair SKILL 30-4: Assessing the Nails Head Skull and Face SKILL 30-5: Assessing the Skull and Face Eyes and Vision SKILL 30-6: Assessing the Eye Structures and Visual Acuity Ears and Hearing SKILL 30-7: Assessing the Ears and Hearing Nose and Sinuses SKILL 30-8: Assessing the Nose and Sinuses Mouth and Oropharynx SKILL 30-9: Assessing the Mouth and Oropharynx Neck Thorax and Lungs Chest Landmarks

SKILL 30-10: Assessing the Neck Chest Shape and Size **Breath Sounds** SKILL 30-11: Assessing the Thorax and Lungs Cardiovascular and Peripheral Vascular Systems Heart **Central Vessels** SKILL 30-12: Assessing the Heart and Central Vessels Peripheral Vascular System SKILL 30-13: Assessing the Peripheral Vascular System Breasts and Axillae SKILL 30-14: Assessing the Breasts and Axillae Abdomen SKILL 30-15: Assessing the Abdomen Musculoskeletal System SKILL 30-16: Assessing the Musculoskeletal System Neurologic System Mental Status Level of Consciousness **Cranial Nerves** Reflexes Motor Function Sensory Function SKILL 30-17: Assessing the Neurologic System Female Genitals and Inguinal Area SKILL 30-18: Assessing the Female Genitals and Inguinal Area Male Genitals and Inguinal Area SKILL 30-19: Assessing the Male Genitals and Inguinal Area Anus Skill 3020 Assessing the Anus Unit 8: Integral Components of Client Care Chapter 31: Asepsis Introduction Types of Microorganisms That Cause Infections Types of Infections Nosocomial and Health CareAssociated Infections Chain of Infection Etiologic Agent Reservoir Portal of Exit from Reservoir Method of Transmission Portal of Entry to the Susceptible Host Susceptible Host Body Defenses Against Infection

Nonspecific Defenses

Specific Defenses

Factors Increasing Susceptibility to Infection

Nursing Management

SKILL 31-1: Performing Hand Hygiene

SKILL 31-2: Applying and Removing Personal Protective Equipment (Gloves, Gown,

Mask, Eyewear)

SKILL 31-3: Establishing and Maintaining a Sterile Field

SKILL 31-4: Applying and Removing Sterile Gloves (Open Method)

SKILL 31-5: Applying a Sterile Gown and Gloves (Closed Method)

### Chapter 32: Safety

Introduction

Factors Affecting Safety

Age and Development

Lifestyle

Mobility and Health Status

Sensory-Perceptual Alterations

Cognitive Awareness

Emotional State

Ability to Communicate

Safety Awareness

Environmental Factors

#### **Nursing Management**

SKILL 32-1: Using a Bed or Chair Exit Safety Monitoring Device

SKILL 32-2: Implementing Seizure Precautions

SKILL 32-3: Applying Restraints

### Chapter 33: Hygiene

Introduction

Hygienic Care

Skin

Nursing Management

SKILL 33-1: Bathing an Adult Client

SKILL 33-2: Providing Perineal-Genital Care

Feet

**Developmental Variations** 

Nursing Management

SKILL 33-3: Providing Foot Care

Nails

Nursing Management

Mouth

Developmental Variations

Nursing Management

SKILL 33-4: Brushing and Flossing the Teeth

SKILL 33-5: Providing Special Oral Care for the Unconscious Client

Hair

Developmental Variations

### Nursing Management

SKILL 33-6: Providing Hair Care

### Eyes

#### **Nursing Management**

### Ears

Cleaning the Ears Care of Hearing Aids

#### SKILL 33-7: Removing, Cleaning, and Inserting a Hearing Aid

#### Nose

#### Supporting a Hygienic Environment

Environment

Hospital Beds

Mattresses

Side Rails

Footboard or Footboot

Intravenous Rods

### Making Beds

Unoccupied Bed

#### SKILL 33-8: Changing an Unoccupied Bed

Changing an Occupied Bed

SKILL 33-9: Changing an Occupied Bed

### Chapter 34: Diagnostic Testing

Introduction

#### **Diagnostic Testing Phases**

Pretest

Intratest

Post-Test

Nursing Diagnoses

#### **Blood Tests**

Complete Blood Count

- Serum Electrolytes
- Serum Osmolality
- Drug Monitoring

Arterial Blood Gases

Blood Chemistry

Metabolic Screening

Capillary Blood Glucose

#### SKILL 34-1: Obtaining a Capillary Blood Specimen to Measure Blood Glucose

Specimen Collection and Testing

Stool Specimens

Urine Specimens

SKILL 34-2: Collecting a Urine Specimen for Culture and Sensitivity by Clean

# Catch

Sputum Specimens

Throat Culture

### Visualization Procedures

Clients with Gastrointestinal Alterations

Clients with Urinary Alterations

Clients with Cardiopulmonary Alterations

Computed Tomography

Magnetic Resonance Imaging

Nuclear Imaging Studies

### Aspiration/Biopsy

Lumbar Puncture

Abdominal Paracentesis

Thoracentesis

Bone Marrow Biopsy

Liver Biopsy

### Chapter 35: Medications

Introduction

**Drug Standards** 

Legal Aspects of Drug Administration

Effects of Drugs

#### Drug Misuse

Actions of Drugs on the Body

Pharmacodynamics

Pharmacokinetics

### Factors Affecting Medication Action

**Developmental Factors** 

Gender

Cultural, Ethnic, and Genetic Factors

Diet

Environment

**Psychological Factors** 

Illness and Disease

Time of Administration

#### Routes of Administration

Oral

Sublingual

Buccal

Parenteral

Topical

#### **Medication Orders**

Types of Medication Orders

Essential Parts of a Medication Order

Communicating a Medication Order

Systems of Measurement

	Metric System
	Apothecaries System
	Household System
	Converting Units of Weight and Measure
	Methods of Calculating Dosages
	Administering Medications Safely
	Medication Administration Errors
	Medication Reconciliation
	Medication Dispensing Systems
	Process of Administering Medications
	Developmental Considerations
	Oral Medications
	SKILL 35-1: Administering Oral Medications
	Nasogastric and Gastrostomy Medications
	Parenteral Medications
	Equipment
	Preparing Injectable Medications
	SKILL 35-2: Preparing Medications from Ampules
	SKILL 35-3: Preparing Medications from Vials
	SKILL 35-4: Mixing Medications Using One Syringe
	Intradermal Injections
	Subcutaneous Injections
	SKILL 35-5: Administering an Intradermal Injection for Skin Tests
	SKILL 35-6: Administering a Subcutaneous Injection
	Intramuscular Injections
	SKILL 35-7: Administering an Intramuscular Injection
	Intravenous Medications
	SKILL 35-8: Adding Medications to Intravenous Fluid Containers
	SKILL 35-9: Administering Intravenous Medications Using IV Push
	Topical Medications
	SKILL 35-10: Administering Ophthalmic Instillations
	SKILL 35-11: Administering Otic Instillations
	SKILL 35-12: Administering Vaginal Instillations
	Inhaled Medications
	Irrigations
Cha	pter 36: Skin Integrity and Wound Care
	Introduction
	Skin Integrity
	Types of Wounds
	Pressure Ulcers
	Etiology of Pressure Ulcers
	Risk Factors
	Stages of Pressure Ulcers
	Wound Healing
	······································

Types of Wound Healing Phases of Wound Healing Types of Wound Exudate Complications of Wound Healing Factors Affecting Wound Healing Nursing Management SKILL 36-1: Obtaining a Wound Drainage Specimen for Culture SKILL 36-2: Irrigating a Wound Supporting and Immobilizing Wounds Bandages Basic Turns for Roller Bandages Circular Turns Spiral Turns Spiral Reverse Turns **Recurrent Turns** Figure-Eight Turns Binders Arm Sling Straight Abdominal Binder Heat and Cold Applications Local Effects of Heat Local Effects of Cold Systemic Effects of Heat and Cold **Thermal Tolerance** Adaptation of Thermal Receptors **Rebound Phenomenon** Applying Heat and Cold Hot Water Bag Aquathermia Pad Hot and Cold Packs **Electric Heating Pads** Ice Bags, Ice Gloves, and Ice Collars Compresses Soaks Sitz Baths **Cooling Sponge Baths** Chapter 37: Perioperative Nursing Introduction Types of Surgery Purpose Degree of Urgency Degree of Risk **Preoperative Phase Preoperative Consent** Nursing Management SKILL 37-1: Teaching Moving, Leg Exercises, Deep Breathing, and Coughing

SKILL 37-2: Applying Antiemboli Stockings Intraoperative Phase Types of Anesthesia Nursing Management **Postoperative Phase** Immediate Postanesthetic Phase Preparing for Ongoing Care of the Postoperative Client Nursing Management SKILL 37-3: Managing Gastrointestinal Suction SKILL 37-4: Cleaning a Sutured Wound and Changing a Dressing on a Wound with a Drain Unit 9: Promoting Psychosocial Health Chapter 38: Sensory Perception Introduction Components of the Sensory Experience Arousal Mechanism Factors Affecting Sensory Function Developmental Stage Culture Stress Medications and Illness Lifestyle and Personality Sensory Alterations Sensory Deprivation Sensory Overload Sensory Deficits Nursing Management Chapter 39: Self-Concept Introduction Self-Concept Formation of Self-Concept **Components of Self-Concept** Personal Identity Body Image **Role Performance** Self-Esteem Factors that Affect Self-Concept Stage of Development Family and Culture Stressors Resources History of Success and Failure Illness **Nursing Management** 

### Chapter 40: Sexuality

#### Introduction

#### Development of Sexuality

Birth to 12 Years

Adolescence

Young and Middle Adulthood

Older Adulthood

### Sexual Health

Components of Sexual Health

#### Varieties of Sexuality

Sexual Orientation

Gender Identity

### Erotic Preferences

#### Factors Influencing Sexuality

Family

Culture

Religion

Personal Expectations and Ethics

#### Sexual Response Cycle

#### **Altered Sexual Function**

Past and Current Factors

Sexual Desire Disorders

Sexual Arousal Disorders

Orgasmic Disorders

Sexual Pain Disorders

Problems with Satisfaction

**Nursing Management** 

### Chapter 41: Spirituality

#### Introduction

#### Spirituality and Related Concepts Described

Spiritual Care or Spiritual Nursing Care?

Spiritual Needs, Spiritual Distress, Spiritual Health, and Religious Coping

### Spiritual Development

#### Religious Practices that Nurses Should Know

Holy Days

Sacred Texts

Sacred Symbols

Prayer and Meditation

Beliefs Affecting Diet

Beliefs About Illness and Healing

Beliefs About Dress and Modesty

Beliefs Related to Birth

Beliefs Related to Death

Spiritual Health and the Nursing Process

Nursing Management

Spiritual Self-Awareness for the Nurse

### Chapter 42: Stress and Coping

Introduction

Concept of Stress

Sources of Stress

Effects of Stress

### Models of Stress

Stimulus-Based Models

Response-Based Models

Transaction-Based Models

### Indicators of Stress

Physiological Indicators

Psychological Indicators

Cognitive Indicators

### Coping

Nursing Management

### Chapter 43: Loss, Grieving, and Death

Introduction

Loss and Grief

Types and Sources of Loss

Grief, Bereavement, and Mourning

Stages of Grieving

Manifestations of Grief

Factors Influencing the Loss and Grief Responses

#### Nursing Management

#### Dying and Death

Responses to Dying and Death

Definitions and Signs of Death

Death-Related Religious and Cultural Practices

### **Nursing Management**

### Unit 10: Promoting Physiological Health

### Chapter 44: Activity and Exercise

### Introduction

Normal Movement

Alignment and Posture

Joint Mobility

Balance

Coordinated Movement

#### Factors Affecting Body Alignment and Activity

Growth and Development

Nutrition

Personal Values and Attitudes

External Factors

**Prescribed Limitations** 

#### Exercise

Types of Exercise

Benefits of Exercise

### Effects of Immobility

Musculoskeletal System

Cardiovascular System Respiratory System

Metabolic System

Urinary System

Gastrointestinal System

Integumentary System

Psychoneurologic System

### Nursing Management

SKILL 44-1: Moving a Client Up in Bed

SKILL 44-2: Turning a Client to the Lateral or Prone Position in Bed

SKILL 44-3: Logrolling a Client

SKILL 44-4: Assisting a Client to Sit on the Side of the Bed (Dangling)

SKILL 44-5: Transferring Between Bed and Chair

SKILL 44-6: Transferring Between Bed and Stretcher

SKILL 44-7: Assisting a Client to Ambulate

#### Chapter 45: Sleep

#### Introduction

Physiology of Sleep

Circadian Rhythms

Types of Sleep

Sleep Cycles

### Functions of Sleep

#### Normal Sleep Patterns and Requirements

Newborns

Infants

Toddlers

Preschoolers

School-Age Children

Adolescents

Adults

Older Adults

### Factors Affecting Sleep

Illness

Environment

Lifestyle

Emotional Stress

Stimulants and Alcohol

Diet

Smoking

Motivation

SKILL 47-2: Administering a Tube Feeding

SKILL 47-3: Administering a Gastrostomy or Jejunostomy Feeding

SKILL 47-4: Removing a Nasogastric Tube

### Chapter 48: Urinary Elimination

Introduction

Physiology of Urinary Elimination

Kidneys

Ureters

Bladder

Urethra

Pelvic Floor

Urination

#### Factors Affecting Voiding

**Developmental Factors** 

Psychosocial Factors

Fluid and Food Intake

Medications

Muscle Tone

Pathologic Conditions

Surgical and Diagnostic Procedures

#### Altered Urine Production

Polyuria

Oliguria and Anuria

### Altered Urinary Elimination

Frequency and Nocturia

Urgency

Dysuria	
Enuresis	
Urinary Incontinence	
Urinary Retention	
Nursing Management	
SKILL 48-1: Applying an External Urinary Device	
SKILL 48-2: Performing Urinary Catheterization	
SKILL 48-3: Performing Bladder Irrigation	
Chapter 49: Fecal Elimination	
Introduction	
Physiology of Defecation	
Large Intestine	
Rectum and Anal Canal	
Defecation	
Feces	
Factors that Affect Defecation	
Development	
Diet	
Fluid Intake and Output	
Activity	
Psychological Factors	
Defecation Habits	
Medications	
Diagnostic Procedures	
Anesthesia and Surgery	
Pathologic Conditions	
Pain	
Fecal Elimination Problems	
Constipation	
Diarrhea	
Bowel Incontinence	
Flatulence	
Bowel Diversion Ostomies	
Permanence	
Anatomic Location	
Surgical Construction of the Stoma	
Nursing Management	
SKILL 49-1: Administering an Enema	
SKILL 49-2: Changing a Bowel Diversion Ostomy Appliance	
Chapter 50: Oxygenation	
Introduction	
Structure and Processes of the Respiratory System	
Structure of the Respiratory System	
Pulmonary Ventilation	
Alveolar Gas Exchange	

Transport of Oxygen and Carbon Dioxide Systemic Diffusion **Respiratory Regulation** Factors Affecting Respiratory Function Age Environment Lifestyle Health Status Medications Stress Alterations in Respiratory Function Conditions Affecting the Airway Conditions Affecting Movement of Air **Conditions Affecting Diffusion** Conditions Affecting Transport Nursing Management SKILL 50-1: Administering Oxygen by Cannula, Face Mask, or Face Tent SKILL 50-2: Oropharyngeal, Nasopharyngeal, and Nasotracheal Suctioning SKILL 50-3: Suctioning a Tracheostomy or Endotracheal Tube SKILL 50-4: Providing Tracheostomy Care Chapter 51: Circulation Introduction Physiology of the Cardiovascular System The Heart Blood Vessels Blood Lifespan Considerations Factors Affecting Cardiovascular Function **Risk Factors** Alterations in Cardiovascular Function **Decreased Cardiac Output** Impaired Tissue Perfusion **Blood Alterations** Nursing Management SKILL 51-1: Applying Sequential Compression Devices Chapter 52: Fluid, Electrolyte, and AcidBase Balance Introduction Body Fluids and Electrolytes Distribution of Body Fluids Composition of Body Fluid Movement of Body Fluids and Electrolytes **Regulating Body Fluids Regulating Electrolytes** AcidBase Balance

Factors Affecting Body Fluid, Electrolytes, and AcidBase Balance Age Sex and Body Size **Environmental Temperature** Lifestyle Disturbances in Fluid Volume, Electrolyte, and AcidBase Balances Fluid Imbalances Electrolyte Imbalances AcidBase Imbalances Nursing Management SKILL 52-1: Starting an Intravenous Infusion SKILL 52-2: Monitoring an Intravenous Infusion SKILL 52-3: Changing an Intravenous Container and Tubing SKILL 52-4: Discontinuing an Intravenous Infusion SKILL 52-5: Changing an Intravenous Catheter to an Intermittent Infusion Lock SKILL 52-6 Initiating, Maintaining, and Terminating a Blood Transfusion Using a Y-Set Appendix Appendix A: Answers to Test Your Knowledge Appendix B: Single Measurement Scales Used in NOC Appendix C: NANDA-Approved Nursing Diagnoses 20152017 Glossary Index **Back Cover** 

Regulation of AcidBase Balance
